DETAILED ACTION

1. Claims 1-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ueda (Japanese Laid-Open Patent 1992-363301) and Blixt et al (4,964,915) taken in view of Savina (3,223,544).

The claims are rejected for the reasons given in the previous Office Action, mailed 12/18/2003. Persson (WO 9955964) is dropped from the rejection in view of Applicant's remarks and because it is cumulative.

2. Applicant's remarks have been considered but are not deemed persuasive of patentability.

Ueda et al discloses the claimed combination of size and starch except for the specific sulfonate dispersant. Ueda uses a lignin sulfonate instead of a condensed sulfonate as claimed. Blixt et al in a similar sizing composition shows that the claimed condensed sulfonate, naphthalene sulfonate is an alternative to the lignin sulfonate used in Ueda et al. One would expect that the use of the naphthalene sulfonate would have at the least functioned in a manner similar to the lignin sulfonate in Ueda et al absent any evidence of unexpected results of using a condensed sulfonate over a lignin sulfonate. Examiner suggests that such a comparison be made in order to resolve this issue.

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
